

# PRO INFO

DATELINE: Long Beach 2/71- Final details on the new competition patch system were released this month by the National HQ. The competition patches are based on the Lifetime Competition Experience Ratings (see Jan. '71 CHRONICLE).

The patches are handsomely designed in two and three colors to be displayed on the chest or shoulder of the member. The line patch, which is worn in conjunction with the competition status (novice, intermediate, pro, etc.).

A special brochure on the complete system will follow shortly for the benefit of our BFM members. FTF members in the Southern California area can see the full-color prototype designs displayed at any LA-SC Conference Meeting. The entire line will be showcased at both the East and West Coast SICL National Conventions this summer.

DATELINE: Long Beach 2/71- The first Long Beach Chapter Tournament closed this month with Brent Ellerbroke winning possession of the special revolving tournament cup. This is Brent's first tournament victory in SICL competition, and perhaps a harbinger of performance to come. Congratulations, Mr. Ellerbroke, on your most successful effort!

Our best wishes go with these gentlemen. And may many more follow!

DATELINE: The World 2/71- Last month we hailed the best wargamer in the SICL, giving tribute where it was due. Now, with typical SPARTAN efficiency and the respect for the proper order of things, we are moved to crown the worst wargamer in the SICL!

Perhaps the most exemplary thing about this man is that he was uncontested for this honor! So, with these few words--the envelope please--and the winner: John Hall! Mr. Hall has failed to win a game in 15 attempts; He is classed Novice-F! Congratulations & good luck!

DATELINE: The Nation 2/71- The following tournaments have been announced this month and are now open for entries. All tournaments are open to SICL members only. Choice of sides is not guaranteed. Deadline for registration for all tournaments is May 15, 1971.
