Buy CBD Isolate Powder Online

Full Spectrum Pet CBD Tincture 300mg Bacon Flavored

## DO YOU KNOW WHERE YOUR CBD COMES FROM?

---

Honestly, the answer is no. Was your CBD tincture made with crude oil, distillate, or isolate? Was it tested for potency, heavy metals and residual solvents? How much THC is in it? Do you have a lab test to prove it?

Right now, there are people buying bottles of "hemp oil" that are made from hemp seed, and contain no CBD at all, thinking all the while that they are using CBD.

At Green Method Farms, we can tell you exactly what is in your bottle. We grew the hemp ourselves, and know the exact CBD potency. We have passed testing for THC below 0.3%. You can scan the QR code on the bottle to see the lab reports from the exact batch of CBD that was used in that tincture. We farmed, processed, formulated, and bottled the products within a 20 mile radius in the high desert of Central Oregon. We can guarantee what is in the bottle.

## FROM SOIL TO OIL: OUR CBD OIL STORY

---

Oregon has become a hub for industrial hemp farming and processing. Most agree the highest quality hemp comes from this region. At Green Method Farms, we believe quality biomass is produced through simple and proven farming methods.

We begin with the best feminized genetics, and propagate our seeds professionally in a seedling nursery operation to help the plant fulfill its genetic potential. This year, we planted our seedlings on June 4th, which gave our plants a solid 8 weeks of vegetative growth, and 9 additional weeks for flowering.

The result is really clean full spectrum oil that is high in major and minor cannabinoids. It really doesn't get any better than this!

## WHY SHOP PURE NATURAL CBD OIL AT GREEN METHOD FARMS?

---

It often becomes confusing to find the ideal [pure natural CBD Oil](#) producer because of a plethora of options available – when it comes to buying pure CBD oil online. From different brands to unique flavors and varying prices, choosing nature's best premium CBD oil can be challenging.

You might be wondering, “what separates one store that displays CBD oil for sale from the others?” Well, speaking in the general sense, there are two things you need to look for before purchasing natural CBD Oil.

The first component is making sure that the company offers high-quality ethanol extracted and lab-tested hemp oil. This factor separates the low-tier companies from the ones with genuinely useful products.

On the other hand, hemp genetics and the area where the hemp is grown act as the factor that differentiates premium hemp oil producers from their mid-tier competitors. Each hemp plant comes with its unique genetics that governs the potency of the extracted premium CBD Oil. Similarly, the location makes the plant grow freely and reach its full potential without having to survive under synthetically created weather conditions.

Fortunately for you as a customer, this is where GMF steps up the game by bringing you whole plant CBD oil that is extracted from the best strain of hemp available. On top of that, we grow our hemp in Central Oregon – a place known as the best area to grow hemp. And it doesn't just end there. At GMF, we do all the work ourselves and hone the process to bring you premium CBD oil at lower prices compared to other brands. Our bulk production capabilities and standardized methods allow us to get you the highest quality premium CBD oils at the lowest possible price.

You know precisely what you're getting because we are transparent about our process and our lab results.

No matter where you are in the United States, Green Method Farms goes a step ahead for you by

offering expedited shipping in all 50 states. We want you to be happy with our premium product. From growing the most genetically advanced hemp to being available all the time, you will want to get your premium CBD right here on this website.

## WHAT MAKES US THE BEST ONLINE CBD STORE?

---

At GMF, we're all about transparency! As someone who's shopping for natural CBD Oil, it is recommended that you go through customer CBD reviews and gain more insights about our products through product testimonials, CBD product reviews, product testing, and brand reputation.

No matter where you look, you will find that our [premium CBD oil drops](#) for sale is being enjoyed by people across the country! Instead of purchasing with us because of our popularity, you should consider other aspects such as product quality, and value for money. This is what makes us one of the best online CBD stores in the market.

And there's more to the equation other than quality products and amazing testimonials. We work towards giving back to those less fortunate. For every bottle of pure CBD oil that you purchase, we donate \$5 to Charity: Water, a non-profit organization that brings safe and pure drinking water to people in developing countries.

Over the past years, we've been working tirelessly to bring you the best quality CBD products. We believe that there is no substitute for quality.

With all that in mind, consider Green Method Farms as a CBD oil brand that not only gets you the results but also helps you develop a sense of self-fulfillment. This is what allows us to rank ourselves among the world leaders that produce Premium CBD Oil.

The quality of [pure natural CBD](#) that we produce is best quantified with the number of loyal customers and attention to detail that we have. Each product that we list is tested by independent 3rd party labs to ensure there's no compromise on quality. In this regard, Green Method Farms is all about making sure that you get the highest quality product.

Navigate our website and go through the products that we have to offer. You will notice that we are specialists when it comes to adding value to hemp because we have full control over the entire cycle of product creation.

# TURNING OIL TO WATER

---

785 million people in the world live without clean water. That's nearly 1 in 10 people worldwide, or, twice the population of the United States. The majority lives in isolated rural areas and spends hours every day walking to collect water for their family. Not only does walking for water keep kids out of school or take up time that parents could be using to earn money, but the water often carries diseases that can make everyone sick. **But when a community gets access to clean water, it can change just about everything.** It can improve health, increase access to food, grow local economies, and help kids spend more time in school.

**From every bottle you purchase, we will donate \$5 to charity: water, a non-profit organization bringing clean and safe drinking water to people in developing nations.**
