## What it means to be a Scientologist

*In the following article LRH explains the background of Scientology and the importance of getting trained as an auditor in order to gain a full understanding of the mechanics of the mind and become truly able to help others.*

The gateway into Scientology is the desire to achieve a gain by the use of Scientology. The desired gain would be the achievement of having a philosophy of life that can apply to life. Scientology is an applied philosophy.

Now you, a Scientologist, think of yourself undoubtedly as being something new under the sun but this is not true. If you carefully look over Greek philosophers, the basic customs and belief of man over a long period of time - I am now talking in terms of tens of thousands of years, as far back as you can reach - you will find out that we are echoing, in Scientology, his hopes and his aspirations. We are echoing the tilings for which he has fought, the things which he has tried to attain in life. We are in the best tradition of man's philosophy on the subject of man. Just because the data has been summated and pulled into sharp importances which evaluate and which then do

more for man than philosophy had done before, does not divorce us from this very long track at least 2,500 consecutive years from the earliest records we have on thinkingness. The early philosopher was trying to shake apart some of the basic data of the universe and understand it. He was trying to hang things together. We actually

are working in direct succession, very direct succession, from somewhere in the neighborhood of 2,500 to 3,000 years of what's considered formal philosophy. We don't vary anything off of this line at all. But there has been a variation within the last century.

An educated man, a few centuries ago was expected to know a

great deal about human behavior and livingness, but something happened between then and now. Take an educated man of today and you'll find him with no command of basic philosophy. No feeling of humanity or understanding of his human race. Quite informative.

In the last century there was a tremendous departure from for-

mal philosophy. Psychology has always been the study of the mind or spirit. "Psyche" is Greek for spirit. But modern psychology has nothing to do with the mind or the spirit. Or with man's soul or anything. It's simply some kind of a dissertation on brain cells or brain function and demonstrates conclusively that all thought comes from mass and that man is an animal and that's that. And these words of great wisdom have complete variance from anything that had been said in all the centuries preceding. They were uttered by a chap by the name of Wundt in Leipzig, Germany, in 1879. He's the only authority for modern psychology as taught in universities and he has no bearing whatsoever on anything else man has ever thought on the subject of his own livingness and beingness.

Now you realize that, today, the bulk of the human race is walking around with the belief that there is something wrong somewhere, but they don't quite know what it is. The hideous thing is that people at large are not aware of a very interesting thing - that anything at all can be

### THOUSANDS ATTEND GRADUATION AT HOLLYWOOD PALLADIUM

Over 1,900 Los Angeles area Scientologists recently attended graduation at the Hollywood Palladium - the largest graduation event ever held in Los Angeles! At the massive graduation Scientologists were briefed by top International Management Executives on the latest Scientology expansion wins from around the world, and pre-clear and student completions from orgs in the greater Los Angeles area were validated for completing their next step on The Bridge to total freedom.

#### Scientology winning around the world

Mr. Heber Jentzsch, President of the Church of Scientology International, opened the graduation stating, "These are really miracle events and I remember how I used to feel the excitement back in the late 1960's when we hurried to graduation to hear the latest wins. Well, that time is back!" Mr. Jentzsch went on to brief attendees on how the Scientology religion is impinging more and more on society. As Mr. Jentzsch put it, "We as

### ASHO SHSBC GRADUATE BECOMES WORLD'S TOP FIELD AUDITOR!

Don Hood decided to become a field auditor after realizing how vital being an auditor was while doing the Hubbard Life Orientation Course.

A Clear and graduate of the Saint Hill Special Briefing Course at ASHO, Don joined a field group in New Mexico just over a year ago and has been auditing ever since. According to Don, "I have been able to use all of my skills as a Class VT auditor to handle teenagers entrusted to

my care. By applying the full Expanded Grades, New Era Dianetics and all the specialist rundowns my pes get their lives totally smoothed out."

According to Don, "By doing the Saint Hill Special Briefing Course I have trained on all of the Specialist Rundowns. This has proven to be very valuable in the field, as all of these tools are needed to crack cases.

## ASHO - THE LARGEST AUDITOR TRAINING ORG IN THE WORLD

*For Scientologists from the Western Hemisphere, the American Saint Hill Organization specializes in delivering the crown jewel of auditor training, the Saint Hill Special Briefing Course.*

As LRH stated in an article, The Goal of Training, "Auditors are being trained at Saint Hill and in the Academies of Scientology organizations throughout the world. They learn to perform flawlessly as auditors, to run certain exact processes and to obtain results with these processes by auditing well and exactly. The auditing skill acquired is a discipline in living and a know-how of the parts of life. It is something new in the universe." A Scientologist first and foremost is an auditor, and the more trained you are the more at cause you will be in life.

At ASHO, we are experts in training auditors and at any given time service hundreds of Scientologists from around the Western Hemisphere on the SHSBC. Already the largest auditor training organization in

done about anybody.

They are not aware that anything can be done about anybody. The cop who gives you a ticket takes it in his normal stride that this is just the way it is. The hospital attendants who pick the remains out of the drunken driving wreck, the very best thought in various professions that *should* have to do with this, are all agreed that there is nothing you can do about it.

Now someplace along the line, some group had to take over the responsibility of turning the tide of this course of thought. That's Scientology. Improvement is the common denominator of all our ideas. We have know-how. Scientology, for the first time in man's history, can predictably raise intelligence, increase ability, bring about a return of the ability to play a game and permits man to escape from the dwindling spiral of his own disabilities. Life can be put back into the devitalized. One can take the so-called "normal" person and send his state of being up to levels of brilliance and success not possible before. And it can be done with Scientology.

One of the great truths of Scientology is that increased awareness is the only factor which offers any road out. That is an awfully simple truth, but you'll find out that people don't know

that. They think that *less* awareness is the road out - and that is the road down into the basement.

There are those who believe in hypnotism, fixed loyalties of one kind or another, and the idea that nobody can do anything with his mind anyhow. They believe that man is an animal, that he thinks with his brain. They believe and teach people, because they know these teachings are destructive, and all thought emanates from force only and that man has no soul and he has no mind.

There is a battle which is going on in the world at this time and that should be understood. There is no good in the world that is not fought by some. The holiest saint, the purest knight, the most orderly group alike have been subjected to attacks since man's beginning. And Scientology is no exception. The turbulence of the society around us is fantastic. There is no just civil law left, really. It is that lawless and disorderly condition in the society about us which makes it hard for us to work.

We live in a civilization where some madmen can sit in a government chair telling everybody how bad it all is over there and so forth, then all of a sudden get 30 million people killed, as one fellow named Hitler did. This is an interesting civilization and that is because people don't know who they are,

or what they are, or where they are going or what they are doing.

What happens to Scientology and Scientologists in a world of this character? Well, our basic attitude toward the world at large will have to be more and more an auditor's attitude if we are going to accomplish survival. (Auditor: A listener, or one who listens carefully to what people have to say. An auditor is a person trained and qualified in applying Scientology processes to others for their betterment.) It might be said that we are starting from nearly nowhere and trying to go somewhere. However, we have the tools to do this.

We have the whole world to handle now. We happen to be living in a house full of people, a house called Earth, and it's all full of people. If they consistently drop out of communication, and if their labors cease to afford produce and assistance to their neighbors, is there any hope that anybody will be able to put them back into communication or back to work again? Is there any hope that this will take place?

Yes, there is a hope. We are rich in knowing how to exactly handle such circumstances or conditions. Nobody knew before. That is factually true here on Earth. You will find yourself being more and more an auditor as time goes on.

I think of an auditor as a per-

son with enough guts to *do something about it*. This quality is rare and this quality is courageous in the extreme.

It is my opinion and knowledge that auditors are amongst the upper tenth of the upper twentieth of intelligent human beings. Their will to do, their motives, their ability to grasp and to use is superior to that of any other profession.

This is a pretty daffy planet in a rather strenuous universe. When you start to introduce order into anything, disorder shows up and blows off. Therefore, efforts to bring order in the society or any part of it will be productive of disorder for a while. The more free people we have, the better we can control the confusion of an area. A group is as capable as it contains capable individual members. The more people who are trained, the more successful we will be.

We're not now in this for play. Our personal futures depend on keeping going and making no major errors. It isn't a question of - "Is there something else?" There isn't. Nobody can be half in and half out of Scientology. Scientologists are Scientologists no matter what they do for a living. The prize is regaining self and going free. If we're going to make this, we have to work at it personally, and as a group and work well.

Therefore, every Scientologist

should understand his own technology, codes and procedures.

And use them. That's the main lesson. We are the only group on Earth that does have a workable solution. It's time we realized it and used it, every one of us. We must set a high example of teamwork and dedication if we are to bring it off.

Scientology can and does change human behavior for the better. It puts the individual under the control of himself - where he belongs. It is a science of life and it works. It handles the basic rules of life and it brings order into chaos. So let's grow up to our own technology and take responsibility for it. And do our jobs as Scientologists to the world.

My purpose is to bring a barbarism out of the mud it thinks conceived it and to form, here on Earth, a civilization based on human understanding, not violence.

That's a big purpose. A broad field. A star-high goal.

But I think it's your purpose too.

## GRADUATION *continued*

Scientologists more and more have to move in and take on the hat of revitalizing the societies in which we are operating."

As an example of this, he explained that in Clearwater, Florida, the location of the Flag Service Organization, the church had recently completed the full restoration of the historic Clearwater Bank Building. In celebration of the event, the Clearwater city council voted unanimously to close Clearwater's main thoroughfare, which runs past the building, for the event. This is the first time in history that had ever been done. The grand opening and ribbon cutting ceremonies were attended by thousands of Clearwater residents who watched as city officials were presented with the keys to the building and validated for their assistance in helping to restore the downtown Clearwater area.

Mr. Jentsch then briefed attendees on the just completed Public Relations Conference recently held aboard the Free-winds. The conference, attended by over 175 Scientologists, gave participants hands-on experience in handling PR activities, including doing live TV interviews, writing press releases and planning

and executing PR capers in ports visited by the Free winds.

In closing his talk Mr. Jentsch explained how the Scientology religion is gaining greater and greater recognition for its activities around the world. He urged all Scientologists to take action in their local communities and do their part to make Scientology technology more known and used.

### The widest doorway to the top of The Bridge

Senior Case Supervisor International, Mr. Ray Mithoff, announced the latest technical news and presented the student and preclear completions. He briefed attendees on actions being taken to make Scientology available to the entire population of the planet through translations, as well as the upcoming release of Super Power, the latest news on the construction of the new FSO technical delivery building and the formation of the New World Corps.

In his talk Mr. Mithoff explained that Los Angeles is the widest doorway to the top of The Bridge and that outside of Flag, ASHO is the place to get trained as an auditor. "You have ASHO," said Mr. Mithoff, "which is near-

ing the end of its renovations. It is fantastic. It has the largest SHSBC delivery spaces and facilities anywhere on the planet. If you are not on the SHSBC, you are missing out."

He then announced the Los Angeles area completions for the week, stating, "This is the largest concentration of Scientologists in the world so it is not surprising that this would also be the largest graduation ever held on the planet!"

In closing Mr. Mithoff announced the latest Saint Hill Special Briefing Course completions and called upon all Scientologists to get trained and become active as auditors.

### Creating an army of auditors

In opening his graduation talk Executive Director International, Mr. Guillaume Lesevre, briefed attendees on the actions being taken to establish ideal organizations around the world. Established as stable points, these organizations enable further expansion to take place in their areas. The latest organization to open up in fully renovated quarters was the Founding Church of Washington, DC, which moved into Fraser Mansion in downtown Washington, DC. In his briefing Mr. Lesevre stated, "But the most important project of this kind is right here at Los Angeles and is the rebuilding of the American Saint Hill Organization."

Emphasizing the importance of ASHO as the organization where the top auditors are trained, Mr. Lesevre told attendees, "What is happening at ASHO is more than important - it is what is going to make the difference between the people of Los Angeles making it to eternity or not. ASHO is the org where the auditors who are going to clear this population are made."

He went on to explain the importance of all Scientologists getting trained and moving up The Bridge, "No matter what

## FULL-TIME TRAINING RECOMMENDED

By training full-time you can cut your auditor training time down by half or more - thus even if you have no auditor training at all within a month of full-time training you could complete all your Academy prerequisites and be on your first auditor training course!

As ASHO Briefing Course graduate Chris Ruane put it, "I had wanted to do the SHSBC for a long time. Finally I just said, 'That's it' and I came here full-time. I finished the BC then routed onto the Internship which I also finished."

"I now have every bit of tech at my fingertips and I can completely handle the pre-clear."

Briefing Course student Cheryl Favilla said, "I've been on the Briefing Course as a full-time student and I'm now on Level J. The greatest thing about a full-time schedule is the momentum I acquired - I am also able to keep in the continuity of the tech as it develops a lot easier compared to

when I trained part time. I have so many cognitions and wins and my understanding of my fellow man changes daily. I would encourage anyone coming to do the SHSBC to come full-time. There's nothing like this course anywhere in the universe." Student Camille Mitchell added, "I can't imagine trying to do the SHSBC any other way than all out! There are so many wins to be had every day and they build on each other in such a way you really feel the POWER behind it all."

## RENOVATIONS AT ASHO MOVING FULL SPEED AHEAD

The entirety of ASHO is being renovated to create a distraction free study environment where you can become a top trained auditor. The second floor, which was the first floor to be completed, contains ten new theory course rooms enabling hundreds of students to train on the SHSBC.

On the third floor, an entire wing is devoted to practical and student auditing course rooms.

Here students will drill their theory materials until they have the tech down cold, then move on to the student auditing course rooms where they will be able to co-audit while being closely overseen and assisted by trained co-audit supervisors. The three large student co-auditing rooms will accommodate

a total of 33 auditing sessions at a time.

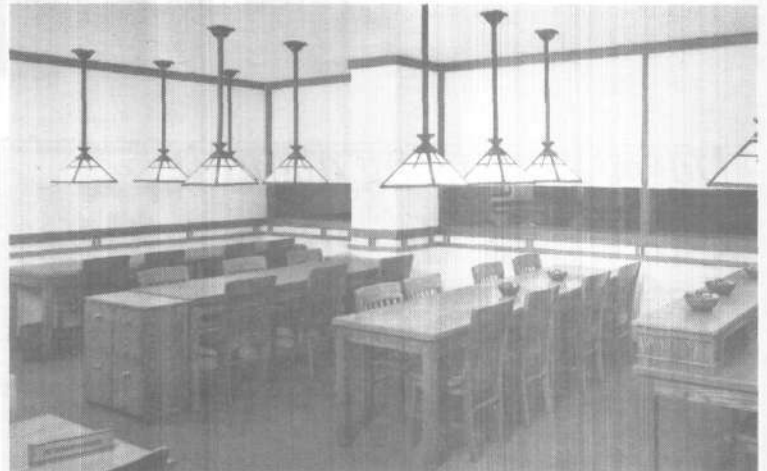

The third floor houses several course rooms, including the Key to Life Course, The Life Orientation Course, The Student Hat, Method One Word Clearing Co-Audit Course, Hubbard Professional TR Course and the Hubbard Professional Upper Indoc TR Course. These newly built course rooms are arranged in sequence so the student simply moves from one to the next until he arrives onto the SHSBC.

The latest space to be fully renovated is the fourth floor, which houses ASHO's new Hubbard Guidance Center. The HGC has a total of 23 brand new auditing rooms where the Clear Certainty Rundown and Power Processing, two of ASHO's specialties, will be delivered. Clears also receive their OT Preparations auditing and OT Eligibility auditing here, which fully prepares them for the OT levels at AOL.

Once the renovations are fully done ASHO will be able to deliver the SHSBC to more than 1,000 students per week - the correct order of magnitude needed to train the army of auditors needed to Clear the Western Hemisphere. The grand opening is coming soon!

## BECOME A TRAINED AUDITOR

Only a well-trained auditor can do something about the conditions he sees in life around him. As LRH put it, "Here we are with the largest fund of information of life that has been assembled in a factual package on Earth. The question is, what are we going to

## Doing something about it Class VI describes the importance of being a top trained auditor

"As an interned Class VI, I have total confidence in my ability to handle any case with Standard Tech. It will soon be 20 years since I graduated the SHSBC but my grasp of the tech has never waned. Not only do I audit pes to rave results over and over, I also use the tech to handle my own life and livingness. As a result, my family and my business have been flourishing and prospering for years." As a veteran auditor, Crister Ringkvist, New OT VII, knows what he is talking about. Crister did the Saint Hill Special Briefing Course in 1976 and went on to become a fully interned Class VI auditor.

He described one dramatic example of how auditor training enabled him to pull the wife of a friend back from the brink of death: "Recently an old friend came to me with his wife who was in bad shape and basically didn't want to live any longer. I gave her a short lecture on Dianetics auditing and proceeded to audit her. After I'd com-

pleted her auditing program she completely changed. Her life energy had returned and she was happy to be alive. She went on to do the Purification Rundown at the local Scientology organization."

Emphasizing the importance of becoming a trained auditor, Crister stated, "Overall, I can say that training has changed my life (and my case) just as much as all of the auditing I've received. Without training I wouldn't have made it to New OTVTI, or been able to create my business and family."

"A Class VI has a full philosophical and practical command of the subject of auditing. I have never had any problem with recognizing and using Standard Tech or recognizing and stamping out out-tech. The most important thing we have as Scientologists is the tech, standard LRH tech. If we use it and make sure it stays pure, then all our goals will come true. It's that simple."

## SHSBC student gets Dianetics co-auditing group started in Cuba!

It was in pre-revolutionary Havana Cuba that LRH wrote the book *Science of Survival* in 1951. Over the years, he continued to correspond with Cuban Dianeticists and Scientologists. Despite the suppressive environment there, two Dianetics study groups took root, one in Havana and another in Pinar del Rio.

Eager to expand their activities, earlier this year Cuban Dianeticists requested assistance in obtaining materials and help from experienced Scientologists. Taking up the call, Clarisse Meschoulan, currently training on the Saint Hill Special Briefing Course, recently travelled to Cuba to help them.

The determined group located a place to hold their meetings and over a period of two days Clarisse helped them learn how

to co-audit. The wins they had were spectacular. They took up and handled secondaries of friends and family disappearing in the night, of fears and lies and hunger. As they continued auditing the tone level of the group rose and it became real to them that they too could reach the state of Clear and actually help their country become Clear.

Clarisse left them with a program to continue their expansion, including bringing key members of the group to Mexico for auditor training. According to Clarisse, "More than anything, what keeps them going is LRH and their dedication to bringing freedom and truth and light to their country through the application of Dianetics and Scientology."

SHSBC student Clarisse Meschoulan expanded Dianetics in Cuba by starting a new Dianetics group in Havana.

## NEW DIANETICS CAMPAIGN IGNITES BOOM IN ITALY

In Rome, a woman called the local Scientology organization after reading a flier and started the Anatomy of the Human Mind Course the same day. Another woman called in on her car phone and explained she was trying to find her nearest org and could she please get directions! In recent weeks a special Dianetics hot line has received 1,350 calls from people demanding more information about Dianetics technology and where to get it, and the number of calls is rising daily. What is all the buzz about?

A new Dianetics Campaign has hit the streets in Italy and the response so far has been tremendous. The slogan for the new campaign, "Know yourself," is showing up on posters, newspapers and buses all over the country and is proving to be very popular. In Genoa for instance, a group of people who saw an ad in their local paper promptly looked up the address of their nearest Scientology org and came in to start the Anatomy of the Human Mind Course.

As a result of all this activity, more people than ever are finding out about Dianetics technology for the first time. Look for even more spectacular news from Italy in future issues of *The Auditor*!

## SCIENTOLOGISTS BAND TOGETHER TO HELP WAR- TORN COUNTRY

A mountain of press reports are written daily about the war in the former Yugoslavia. Aid while governments and peacemakers argue over what should be done about it - with little result - European Scientologists are taking effective actions to help it.

In reviewing die situation and what should be done about it, European Scientologists set forth a course of action - get *The Way to Happiness* translated and broadly distributed to Bosnian and

Croatian leaders and the rest of the population.

The booklet was rapidly translated into Serbian and Slovenian by a handful of dedicated Scientologists, while others worked out ways to get it out to as many people as possible. Shortly after the translations were completed the booklet was printed in full in the national newspapers of both Bosnia and Croatia. Additionally, thousands of copies of the booklet were printed and distributed by volunteers throughout

Croatia. The booklet is having a tremendous impact on those who read it. As one student who read the translated *The Way to Happiness* put it, "I am certain that die booklet will change the conditions in Croatia and I personally will do everything I can to see that a lot of people get this booklet." A consul at the Bosnian Embassy in Vienna, Austria stated, "This booklet is the most important thing for the people in my country."

## BRINGING DIANETICS TO HUNDREDS OF THOUSANDS IN CHINA

Doctor Xing Shuhua, from the city of Dalian, China, first picked up a copy of *Dianetics: The Modern Science of Mental Health* in 1992. Ever

since then, he's been enthusiastically using the technology to help everyone he comes in contact with.

After reading *Dianetics*, Xing started auditing and has since audited over two hundred people. "Dianetics helped me a lot. I wanted this to happen to other people," said Xing, explaining why he began auditing people who came to the hospital asking for help.

"I will never forget my first preclear. He had been a soldier in the army and was diagnosed as a classic Anxiety Neurotic! As a result he had lost his job and his wife had left him."

"Before he came to me, he had been to several big hospitals and they did nothing for him. I decided to audit him and he was able to return to several terrifying experiences including the death of his mother and horrifying wartime incidents. After several sessions, news came to me that he no longer had 'anxiety attacks' (and till now hasn't had one again). He is now calm and can handle everyday life and he has even gone back to work."

Airing a weekly radio show, Xing is disseminating to hundreds of thousands of Chinese and making Dianetics known in his homeland. When Xing isn't on the air, you can find him busily auditing his friends and associates on Dianetics procedures.

## SHSBC grads create thriving field practice in South Africa

After becoming trained auditors, a husband and wife team from New Zealand joined forces with several other Australian Scientologists and journeyed to South Africa, where they set up a thriving field practice. The couple, Bruce and Marlene Gibson, have been auditing South Africans up The Bridge to Clear for years now.

Bruce explained how the field group operates. "We run all services from Life Repair and Purification Rundown all the way to New Era Dianetics

auditing. We also deliver Life Improvement Courses." The field practice is one of the most productive in the world.

According to Bruce, "What it took was technical certainty achieved through training, interning and practicing. Add a spirit of adventure, the courage to make a go of it and total determination to succeed - it actually isn't hard to do. It just takes the purpose and determined effort."

"After our training we knew that wherever we go on die planet

all we need to do is crack open the meter case, announce start of session, deliver to the first preclear or two with results, and pes will beat a path to the door. And this is exactly what we have been doing."

Marlene told *The Auditor*, "It really is nice to be a professional Scientologist and deliver the tech on a full-time basis. It is exhilarating to take new people up The Bridge to Clear and see their lives changing in a positive way. Scientology is what everyone needs like they need their next breath."

## New LRH Lecture Series Released at Special Los Angeles Area Graduation

In a special graduation ceremony held at the Hollywood Palladium, Mr. Ronnie Miscavige, from the Senior Executive Strata, released the latest LRH lecture series, *Expansion of Havingness*. The new series, released in commemoration of the Grand Opening of die new Founding Church of Scientology in Washington, DC, consists of nine lectures given by L. Ron Hubbard at the Clean Hands Congress in Washington, DC in 1961.

These taped lectures reveal some of the most remarkable breakthroughs LRH ever made in his research leading up to the OT levels.

As part of his research at Saint Hill, LRH investigated why people do the same things over and over, life after life, and what it is that affects a being's ability to generate intention and horsepower. In doing so he discovered a shattering datum that would unlock die riddle. He discovered that somewhere, you still have every being-

its own bad luck, habits, chronic pain and illness.

What LKM discovered was the forgotten, undead residue of a billion lifetimes, the source of the super complex, interconnected problems that will NOT vanish - the Goals Problem Mass, the black masses of the reactive mind.

In late December 1961, LRH flew to Washington, DC to give a series of lectures to a Scientology congress at the Mayflower Hotel. He opened the congress stating, "I probably have the best news for you that I have ever given at a congress." Thus begins the series of remarkable lectures now known as the *Expansion of Havingness*.

This lecture series was broadly released at the Los Angeles graduation, and after the event Scientologists jammed the ASHO booth to get their copies of the lectures. The *Expansion of Havingness* lecture series is now widely available in any org or mission bookstore.

You want to smile, they make you yell.

You want to reach, they make you shy away.

You want to live... they make you die.

Here is the totally black, nightmarish morass that lurks in the depths of your universe. Here lies the undead residue of a billion lifetimes, the super-complex, inter-connected problems that will NOT vanish.

# ASHO - The Home of Clear in North America

The American Saint Hill Organization (ASHO) specializes in helping Scientologists reach the state of Clear and beyond. And in order to help even more people reach the levels of Clear and above, a brand new 24 room Hubbard Guidance Center is currently being created as part of our top to bottom renovations program.

## POWER PROCESSING - A KEY STEP ON THE ROUTE TO TOTAL FREEDOM

The next step on the road to Clear for anyone who has not achieved the state of Clear on New Era Dianetics is Power processing. This processing is delivered by specially trained auditors. LRH described Power this way: "Man can seldom handle POWER. He retreats from it or abuses it. When he has it, he often misdirects it. To have it and handle it is attained as a Grade V Release, extended and stabilized at Grade VA."

Dr. Brian Nunley, from Columbus, Ohio, recently received Power processing at ASHO and here is what he had to say about it:

"I had heard for months how special Power is from many people. My anticipation was very great when I started this grade.

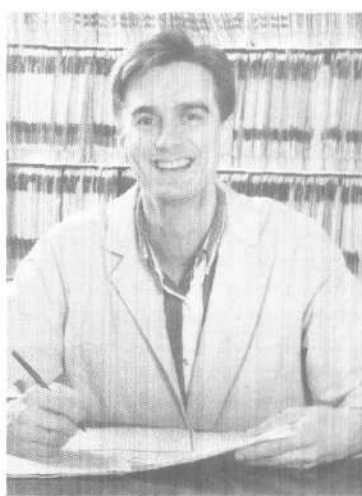

"Power is truly something special, the most special thing I have encountered in trillions of years. I have my power back. What price can I put on that? It would have been a bargain at any price. If the world could have just a smidgen of the affinity I now possess, the possibility of war would be wiped out forever.

"My horizons are endless and I do mean endless. I am only dealing in the future and positive postulates are in abundance.

I know I'm a vital link in the future of this universe. We will clear this planet and I can tell my children and grandchildren that I helped.

Thanks for giving me back something that was taken away a long time ago."

If you completed New Era Dianetics but are not yet Clear, come to ASHO for Power processing. Remember, no matter where you are on The Bridge, you can come to ASHO and we

# FOCUS ON SUCCESS

A Scientologist is someone who takes action to handle the world around him. And no one is better equipped to handle the "unhandleable" than the auditor. Of course, even amongst auditors there are levels of skill, and, as one increases his level of skill he becomes more and more able to help others.

Comprising a full study of Scientology in chronological order, including over 430 lectures by L. Ron Hubbard, the Saint Hill Special Briefing Course is the most comprehensive auditor training course you can do.

In the following stories, SHSBC graduates describe how this course changed their lives and made it possible for them to create miracles in the lives of others.

## AUDITOR TRAVELS THE WORLD DELIVERING MIRACLES

In January of 1969 a young college graduate in philosophy read his first book about Scientology - *Dianetics: The Evolution of a Science*. He ordered 6 more books and then went into the nearest org for service. By November 1969, Trey Lotz had completed training through the Scientology Academy Levels and the Saint Hill Special Briefing Course, and had begun his long career in Scientology.

Continuing to move up The Bridge, by 1971 he had complet-

Ron and Lyn Fiandaca, Class VIII field auditors, have a thriving field practice and have travelled the entire United States helping others get up The Bridge.

ed through OT III and the Class VIII Course. A friend asked him if he would audit his girlfriend, then another friend wanted some auditing and then another. Pretty soon he had a lot of preclears. For the next 12 years his practice continually increased; he averaged between 800 and 1400 Well Done Auditing Hours per year.

A few years later Trey got a request to go and deliver a Dianetics Seminar - in Nigeria! According to Trey, "There was one Scientologist in Nigeria who had promoted the seminar broadly, including banners in the city and coverage on a local television station. I went, and it was a big event. The public who

attended that seminar pulled together and that group became the mission of Lagos, Nigeria."

After returning home, Trey got called (tit again - this time to India!

"This was similar to the event in Nigeria. There was one Scientologist in the country and holding this Dianetics Seminar was big news. In India, Scientology was viewed as fairly usual since the idea of man being a spirit is the norm in India.

"But they didn't know what to do with their aching bodies, and Dianetics was a very exciting technology for them. Many professionals came to the seminar - doctors, lawyers, teachers, important local businessmen and community leaders. It was a great success!"

As Trey put it, "I like being an auditor because you can follow a guy through life with whatever he needs."

## COUPLE TRAVELS THE UNITED STATES GETTING OTHERS UP THE BRIDGE

Class VIII auditors Ron and Lyn Fiandaca have been field auditors for over a decade, traveling the entire United States helping people get up The Bridge.

Formerly an officer in the Navy, Ron described how he got into Scientology, "I found a ticket to a Dianetics lecture in a nightclub in San Diego where I was stationed at the time. I went to the lecture, which was on ARC, and really liked what I heard. I signed up for the Communication Course and I was on The Bridge. Around that same time Lyn applied for a job as a receptionist in a nearby mission and rapidly became a Scientologist herself. We met and were married a year later."

While still on active service in the Navy, Ron immediately started training as an auditor. He and Lyn both trained through the Saint Hill Special Briefing Course and the Class VIII Course.

"Our practice is not organized to be in any one particular place, and we travel the country handling people. We have become largely known through word of mouth. Friends and relatives of the people we have handled now reach to us for help.

Ron Fiandaca described their successful action in procuring preclears, "Rather than just sit around waiting for a preclear, the best thing to do is to audit. Even if it is just to help out or a favor for a friend, just auditing and delivering auditing is the best thing any field auditor or anyone at all can do in life. You have to just keep auditing and keep your technical skills in good shape by doing cramming and drilling."

He summed it up by stating, "Auditing is the most worthwhile activity a person can be involved in. There is nothing else I would ever want to do."

## WHAT SORT OF WEAPON DO YOU USE AGAINST MAN'S DEADLIEST ENEMY?

Man's deadliest enemy is the reactive mind. Bullets won't stop it. Bombs won't even chip it. It has wreaked havoc on the human race for trillions of years. But now there's a weapon, a penetrating tool to see inside the bank so the auditor's commands can blow it apart.

The HUBBARD® MARK SUPER VII® E-METER™.

Coupled with the SCIENTOLOGY® Troubleshooter, the reactive mind hasn't got a prayer. The MARK SUPER VII and Troubleshooter are available in a wide choice of colors. ## THE BEST WAY TO MAKE A LIVING - AUDITING OTHERS!

Auditor training has been key to the success of Divona and Michael Lewis. In addition to being full time auditors, Divona founded a school for children with artistic and theatrical skills and Michael writes screenplays for Hollywood productions. Divona described how they got started as field auditors, "We tried all kinds of ways of making a living and were very unhappy. One day I couldn't take it anymore. I went home and told Michael, 'We're both trained. We can help people.' Then and there we decided to open our own field practice and start auditing others for a living."

According to Michael, "The most exciting part about being a field auditor is watching the expansion of an individual - first they get their own lives together and then they start to take responsibility for the world around them."

Divona added, "For me, training will always be the senior activity. As an auditor trainee I could always co-audit on my processing, as an auditor I always have the tools to help others and to put order into their lives and the world. Being trained helps

you to be stable and to make others more stable. Without training I would not be able to handle the activity and randomness of my life - being a full-time auditor, running my school and at the same time raising a family and moving up The Bridge myself."

Divona described her biggest win as an auditor: "With the vast data you learn on the Briefing Course you gain tremendous certainty as an auditor. You expand the amount of tools you have as an auditor, increasing your confidence even more."

"A friend of mine was diagnosed as having cancer. She was on various treatments for this, but the condition itself was not getting better."

She was in financial ruin and effect of the situation. I decided I was going to handle her with auditing."

"I did an extensive auditing program and because of my SHSBC training I was able to do technical actions I would not have known how to do otherwise."

By the end of the auditing program she was doing very well. A new examination done by her doctor found no trace of cancer - it was entirely gone."

## TAKE A RARE PHOTOGRAPHIC JOURNEY WITH RON

in the 1996 L. Ron Hubbard Calendar

Available  
in eight  
languages!

In 1965 L. Ron Hubbard set out on a photographic journey to the remote Canary Islands off the coast of Africa.

He took with him 6 cameras to capture vistas of land and sea. But, as Ron remarked, life does not always present great photographic opportunities - sometimes the photographer must work long and hard for a single shot.

And so, he himself climbed high points of land to capture startling land and seascapes. He walked into deserts and photographed a lonely camel descended from those brought to the islands by African traders.

He pressed through thunderstorms to photograph a breathtaking view of a mountain gorge.

Now these rare and previously unpublished photographs can be yours to enjoy the year round in the new 1996 L. Ron Hubbard Calendar!

## ROAD TO FREEDOM MUSIC NOW RELEASED ON CD IN SEVEN LANGUAGES

In 1984 LRH wrote, "I am composing a special album of 10 Scientology songs. In doing these I discovered that it is potentially a very heavy dissemination tool. The songs actually would tell public persons what Scientology was all about... If a musical dissemination tool existed, Scientologists could play it for their friends while enjoying it themselves and if it eventually went public and got radio time it would do more good than a ton of talk shows in getting across to the public what Scientology is all about."

The SCIENTOLOGY music album *The Road to Freedom*, containing songs and lyrics by L. Ron Hubbard, has been newly translated and recorded in seven languages and released on compact disk and cassette in all SCIENTOLOGY organizations worldwide.

Because the lyrics of the songs in the album contain basic SCIENTOLOGY datums, it raises the tone level and understanding of SCIENTOLOGY technology wherever it is played. This album will not only strengthen your own understanding of basic SCIENTOLOGY principles, you can play it for your friends and get them interested in SCIENTOLOGY and started on THE BRIDGE to total freedom.

*"In all the broad universe there is no other hope for man than ourselves. This is a tremendous responsibility. I have borne it too long alone. You share it with me now."*

*L. Ron Hubbard*  
Commodore  
Rons Journal 67

The blunt truth is that there is no organization on Earth as powerful and capable as the Sea Organization.

The truth of that lies with the individual Sea Org member. By taking full responsibility for his post and duties, through the uncompromising and continual standard application of LRH™ policy and tech, through his own initiative and unswerving

dedication to Source - it is he who activates the power of the Sea Org.

Sea Org crews have an awesome responsibility, for there is no one else to look to to get the job done. There is no other organization, there is no other group. The future ultimately rests with us.

**Isn't it time you joined us?**
